

EVERSEAM™

THE NEXT GENERATION OF METAL ROOFING

EVERSEAM™

Attractive Design

The Everseam™ panel has the elegant look of a traditional style standing seam roof, with the strength and durability of high strength 24-gauge steel. Our high-quality, pre-painted metal roof affords an attractive life cycle cost as they will not crack, shrink, or erode. This makes them a long lasting alternative to many conventional roofing materials. A homeowner is certain to achieve a designer look from our wide selection of styles and colors, creating an aesthetically pleasing appearance that will have a positive influence on re-sale.

Superior Strength

Everseam™ is 20" (+/- 1/4") wide with a 1 1/2" high seam. The integral locking seam is held in place by concealed metal clips, and is installed over a waterproof solid substrate. The absence of exposed fasteners and the weather-tight side lap, allow for applications on roof pitches as low as a 3:12. Everseam™'s durability and aesthetic appearance make it an ideal choice for residential roofing applications.
